2006 Seasonal Lockage Schedule For Recreational Craft Through Navigation Locks On The Snake and Columbia Rivers

The Walla Walla District, U.S. Army Corps of Engineers, is implementing the 2006 seasonal lockage schedule for the passage of recreational craft through the following navigation locks:

McNary Dam

Columbia River Mile 292

Ice Harbor Dam

Snake River Mile 9.7

Lower Monumental Dam

Snake River Mile 41.6

Little Goose Dam

Snake River Mile 70.3

Lower Granite Dam

Lower Granite Project	Martin Mendiola	(509) 843-1493x251	(509) 843-1493x231

When a recreational vessel lockage schedule is in effect, recreational vessels will only be allowed to lock through at the times designated for such lockages and they will take precedence over commercial vessels. Commercial vessels will continue to be locked through upon arrival except during the times specified for recreational vessel lockages. At the discretion of the lock operator, recreational vessels may be allowed to lock through with commercial craft.

All vessel owner/operators lock through at their own risk. Follow the directions of the lock operator when using the locks or operating in the vicinity of the locks. The lock operator has final authority on the suitability of a craft for lockage. Please refer to U.S. Corps of Engineers Safe Lockage Policy for Recreational Craft on the Columbia and Snake Rivers, published separately, for additional safety requirements.

For additional information on this matter or copies of our Safe Lockage policy, please call Ann Glassley, at (509) 527-7115 or Jim Bluhm, (509) 527-7114.
